About me

A manager, developer, and part-time wildlife rehabilitator.

I enjoy figuring things out, prototyping ideas, empowering teams, and having fun along the way.

Work experience

Engineering Manager

Platform Team

Xeneta — Oslo, Norway (January 2022 – December 2024)

- Led efforts on building and maintaining platform tooling in an iterative and dynamic environment to help product teams develop, test and deploy applications faster.
- Collaborated with stakeholders across the organization to solve complex technical problems while maintaining a high standard of quality and reliability.
- Led by example and helped engineers achieve the next level of career and professional growth by coaching and mentoring.

Lead Software Developer

Xeneta — Oslo, Norway (January 2021 – January 2022)

- Led hiring efforts for 5+ front-end developer positions.
- Focused on continuous evaluation and refinement of development and infrastructure standards and processes.
- Ensured that current and long-term product focused work is balanced with technical debt and strategical tech development.

Senior Software Developer

Xeneta — Oslo, Norway (January 2019 – January 2021)

- Guided goal setting, planning and architectural efforts within the team.
- Ensured the code and systems matched the product and business needs and were scalable.

Software Developer

Xeneta — Oslo, Norway (June 2017 – January 2019)

Worked on various tasks from refactoring legacy code to building new features and applications.

Software Developer

Gremi Media — Warsaw, Poland (March 2016 – June 2017)

Developed the new client-facing application for a nationwide specialized daily newspaper.

Software Developer

Ideo Software House — Rzeszów, Poland (March 2015 – March 2016)

Delivered projects for clients from various industries: finance, energy, consumer, and healthcare.
